

AFOLABI JOSEPH

Computer Science Student | Software Developer

Profile

High-performing Computer Science student with a 4.53 CGPA, demonstrating exceptional analytical ability and mastery of core computing fundamentals. Trained in operating systems, networking, and software design, with hands-on exposure to system workflows, troubleshooting concepts, and digital collaboration tools. Known for fast learning, precision, and reliability in technical tasks. Seeking an IT Internship to translate strong technical foundations into real-world system support within a global, remote team.
